#### THE ELBA CLIPPER

R. C. Bryan ...... Owner-Publisher Entered as second class matter July 18, 1905, at the Postoffice at Elba, Alabama, under Act of Congress of March 3, 1876.

Haldane Strain, a former Elbian, son of Mr. and Mrs. Almon Strain of Elba, at the age of 24 is receiving wide recognition for his exceptional musical talent. For the past nine months he has been director of music at the Arkansas in the canning centers. I'm not critical water furrow they will get scorched when you have a few weeks of the work your beans just as long ing to get out of all the work we can. It is honorable to dodge work in this modern age and canning centers. I'm not critical water furrow they will get scorched when you have a few weeks of dry weather. You should continue to work your beans just as long ing to get out of all the work we can. It is honorable to dodge work in this modern age and canning centers. I'm not critical water furrow they will get scorched when you have a few weeks of dry weather. You should continue to work your beans just as long ing to get out of all the work you continue to gather beans. When you leave off the work you may also leave off the gathering may also leave off the gathering of the properties of the power of God unto salvation to every one that believeth.—Romans 1:16. rector of music at the Arkansas State College at Jonesboro, and the April 20th issue of the Arkansas State College Herald carried the following article:

"When young Mr. Haldane Strain raises his trumpet and gives, Gabriel himself takes a run-out powder. And when he draws his powder. And when he draws his bow across his violin, well it just on the true sense of the word. But the point you stick two rows together you should continue to plow the other middle until you are ready to take the vines down. Only a few hills of beans properly worked and fer tinzed will grow you an enormous amount of snap beans. The work of sticking your beans is very important. It seems that a bean company." So wrote a prominent business advisor recently, as quoted in the Practical portant. It seems that a bean company. rector of music at the Arkansas ning is certainly work in the true except for the first picking. If

mary school there but matriculated at Montgomery, Ala., for nigh school.

"When he was seven years old, Mr. Strain's picture was in papers all over the United States for bears and over the United States for bears. The Light of the ground, in fertilizing your beans, I would go to the top of any common tree if the tree was dead and worked. There is no special art in sticking ground, in fertilizing your beans but there seems to be a ground, in working your beans and in sticking great dislike among men for this good despite the good news of the good news of the good news of the good news of the ground, in fertilizing your beans. The Light of the good news of the go

been here only eight months, he has already become one of the most admired and respected teachers on the campus."

DOUBLE HEAD CLUB NEWS

The Double Head Home Demonstration Club met Friday, May 5th, at the old school building. Fifteen members, Miss Mathews and one visitor were present. The house was called to order by the president, Mrs. J. C. Paul. Devotional was given by several members memorizing verses in the Bible.

The subject for this meeting was grading canned products, The lesson was grading canned products. The lesson was greatly enjoyed by those present and the members feel that they will receive much benefit from it during the canning season. The meeting adjourned to meet was a lack of a free sample of UDGA and a fee its received in the members and the members and respected teachers on the campus."

In the you must remember to keep the top of the groun must remember is to keep the top of the groun better that on April to September. You can grow them from frost to frost and there is not one time better than any other than any oth brings forth a sacrificial determina-
